Software Licensing Main Widget ∨

Qualified subscribers of the academic community, students and faculty, can utilize the VMware Academic Software Licensing Program for education and research purposes only. It cannot be used for production environments.
Use of VMware software for instruction and research is governed by specific program guidelines and the conditions described within the EULA
Software can be installed in research labs as well on the personal computers of faculty and students involved in research projects. Use is exclusive only for non-production environments.

Step 1: Getting your 1-Year License Key
Request the *Software License Key* from the Software License Catalog.

Step 2: Getting your Software Product Download
To get your software download create an account on the MyVMware Portal.
In this portal you will be able to download any VMware Solution for Evaluation Purposes.
If you already have an account just pick the software product that you need from the "Direct Links for Software Download" section.

Step 3: Licensing your Product
Now that you have requested your software key, downloaded and installed your VMware product go to the *Licensing Section* of the software and use the given key.
Please note how to add the software key may vary by product.

If you have other questions please check the official ASL FAQ or for more information on our academic software licensing program please visit the Academic Software Licensing Website
